## GT Invoice Maker Crack For Windows 2022

GT Invoice Maker Torrent Download is a finance and business tool designed for helping you create invoices which can be printed. Wizard-like approach A wizard-based assistant helps you configure initial database settings. Advanced users may skip this step and tweak the dedicated parameters on their own. You are allowed to set up your company's logo, name and address using the built-in designer which lets you insert images, user-defined text, rectangles, lines, and ellipses. GT Invoice Maker gives you the possibility to add information about items, terms, payment and shipping methods, order number, tax rate and currency, order status, sales representatives, and printing paper format. User interface The GUI may look a bit overwhelming at a first glance but it provides a well-structure suite of features so you are going to get used to working with its features pretty quickly. There's also support for a help manual in case you want to find out more about the tool's capabilities. Configuration settings GT Invoice Maker gives you the possibility to check out an inventory with all the items included in the database and preview the information before printing it. Adding a new item to the database can be done by providing details about the barcode numbers, supplier, shelf, in-stock, number, description, and unit price. What's more, you are allowed to store additional information about each invoice, use different currency symbols, change the tax value, enable the order number system in order to have invoices with different order numbers, and store details about the customers' addresses. You can preview and print the invoices, look for invoices in the database by tracking number, email address, customer number, or another criterion, as well as go to the previous, next, first or last invoice from the list. The configuration parameters can be password-protected in order to make sure other users cannot make changes to your settings. Final remarks All in all, GT Invoice Maker can be used by small-sized businesses for creating quick and professional-looking invoices without spending too much time setting up intricate and lengthy dedicated parameters. GT Invoice Maker Game Center: GT Invoice Maker is highly rated on Game Center and more than 3.5 out of 5.0 users have rated it as "App to use". GT Invoice Maker App Features: GT Invoice Maker can be used by small-sized businesses

Final remarks All in all, GT Invoice Maker can be used by small-sized businesses for creating quick and professional-looking invoices without spending too much time setting up intricate and lengthy dedicated parameters. GT Invoice Maker Reviews Reviews of GT Invoice Maker GOOD 5 By Zvayia It can take one person a couple of days to set up this software and create invoices, I have been using it for over a month. I am very pleased. It is good software

## What's New In GT Invoice Maker?

The Invoice module allows you to generate a single or a series of invoices with a wide array of parameters that can be adjusted from the Admin menu (to be described later). You can generate invoices from your orders, accept or reject them, and schedule their generation. From the Invoice list, you can print an invoice or send it as a PDF or an EML file to your customers. In addition, you can email an invoice to one or more recipients. The list of recipients and their email addresses is saved into the form so you can retrieve it at a later stage. Pro:

- Allows you to work with a single or multiple orders.
- Print invoices either directly from your orders or from your last sent invoice.
- Allows you to print invoices from the list or from the form (PDF, EML, or Email).
- You can attach documents to an invoice.
- Send invoices as PDF, EML, or email attachments.
- Allows you to add up to 20 recipients by name, email address, or mobile phone number.
- You can also email your invoices to your clients.
- Allows you to schedule the generation of invoices for the future.
- You can save your recipient's email addresses or mobile phone numbers in the form for easy retrieval.
- Allows you to select any of the product groups in the system.
- Allows you to select any of the customer groups in the system.
- Allows you to choose the template you need.
- Allows you to modify any of the template parameters (font, size, styles, etc.).
- Allows you to customize the invoice logo.
- Allows you to choose among several languages.
- Allows you to select the invoice color.
- Allows you to save the invoice colors, so you do not need to set them each time.
- Allows you to manage invoices from the list or from the form.
- Allows you to define the order number to use.
- Allows you to manage the orders of your customers (or those of your clients).
- Allows you to schedule a reminder for invoices that are overdue.
- Allows you to define a tax rate.
- Allows you to change the tax rate for your invoices.
- Allows you to define the currency you need for your invoices.
- Allows you to choose your currency symbol.
- Allows you to track all your invoices.
- Allows you to view your inventory.
- Allows you to add or delete the items in your inventory.
- Allows you to define the item description and item unit price.
- Allows you to insert an image, text, a rectangle, a line, or an ellipse.
- Allows you to save images as PDFs, EMLs, or emails.
- Allows you to print
