Msdart 7 Iso

Is there an MSDart 7.0 ISO for Windows XP? Currently my Debian package manager only provides MSDart 5.2 when 6.1 should be used. I tried to find the ISO but I can't find it and I think it might be because it's not on the CD. I think I need to find it on DVD, but maybe I'm just wrong. I want to use my own program which generates a .scr file and runs on WinXP. So my guess is that MSDart must have something comparable. dd2bc28256
