

[Download](#)

DameWare NT Utilities installation package is prepared to be downloaded from our fast download servers. It is checked for possible viruses and is proven to be 100% clean and safe. Various leading antiviruses have been used to test DameWare NT Utilities, if it contains any viruses. No infections have been found and downloading DameWare NT Utilities is completely problem free because of that reason. Our experts on malware detection tested DameWare NT Utilities with various spyware and malware detection programs, including fyxm.net custom malware and spyware detection, and absolutely no malware or spyware was found in DameWare NT Utilities. Here are some key features of DameWare NT Utilities: DNTUs Active Directory functionality does not require the user to be currently logged into the Domain in order to function. We also continually receive comments from our user community, that the implementation of our Active Directory interface is one of the best on the market today. Not only in functionality, but also in flexibility and ease of use. DNTU also includes the Mini Remote Control program, as well as the DameWare Exporter. So you are actually getting three powerful products all in one low price. DNTU is a multi-threaded application, which allows for enhanced performance and speed. So you don't have to wait for one view to finish loading before starting another task within the software. You also have the ability to customize the thread priorities. DNTU is implemented within an MDI (Multiple Document) interface. In other words, you can have multiple views open for the same machine or even several different machines simultaneously. The purchase of DNTU also includes 12-months of complimentary maintenance for these licenses, and support for our software is included free of charge (even before you decide to purchase the software).
